

KCP50

Our controllers can be added as modules to scale to your space, regardless of size.

Key features

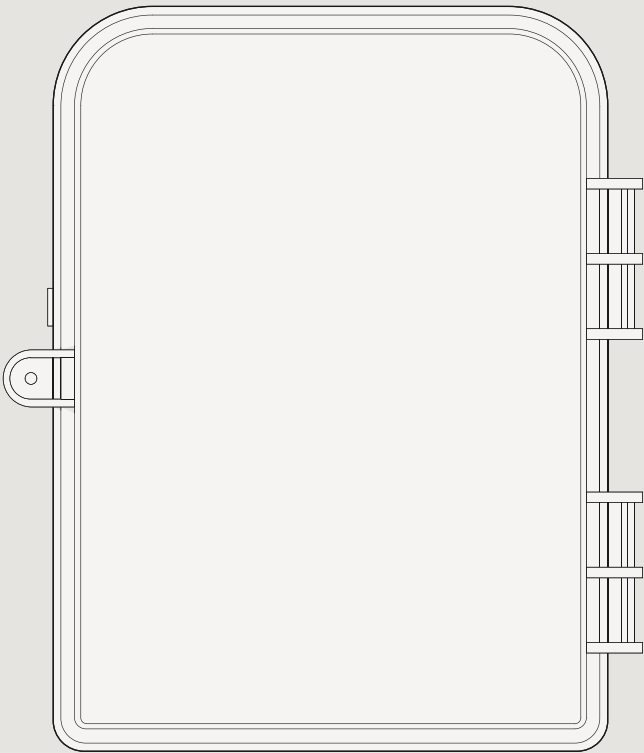

- Cloud updates with potential local cache
- 4 powered or unpowered door relays
- 4 door contact sensor inputs
- 4 push to exit inputs
- Connectivity via Ethernet or WiFi
- Power supply included
- ReX Inputs

The administrator experience benefits include

- Plug & Play connection
- Absolute control with the Kisi Dashboard for easy managing and programming of in- and outgoing connectors

The administrator experience benefits include

- Mortise Locks
- Electric Strikes
- Magnetic Locks
- Panic Bars

Features	Power 24V DC (included) External Power Supplies 12V DC for dry contacts 24V DC for wet contacts Powering Locks Relay maximum is 2A. Supply low voltage power for electric strike. '	Connectivity Ethernet (CAT6) and/or WiFi Mounting Screw-in-Wall Signal Wiring 4 Dry/Wet relays wiring to door security hardware 4 Door Contact Sensors 4 Request to Exit Sensors	Measurements (inches) Height:12" Width:9" Depth: 3" Access Board: 161x81mm
